Good morning,

Thank you for reaching out regarding your group, Testing for Pease and your concerns with the discovery of elevated levels of PFOA contamination in the wells of multiple New Hampshire communities.

As you may know, Senator Shaheen is very aware of this issue and has been in touch with the EPA Administrator directly, urging the quick release of a long-term health advisory standard for PFOA. We have also shared with Senator Shaheen a copy of your letter.

Staff in my office have been in touch with the towns impacted and with the NH Department of Environmental Services to ensure that we're staying on top of the issue.

We will continue to follow this closely and appreciate your continued advocacy.

Thanks again.

Best,
Cara

Cara Osborn

Director of Constituent Services
Office of United States Senator Jeanne Shaheen
